Contents

VOLUME 17, NUMBER 1, FEBRUARY 1994

1 **H. Tournaye, R. Janssens, P. Devroey and A. Van Steirteghem**
The influence of pentoxifylline on motility and viability of spermatozoa from normozoospermic semen

9 **T. N. Ramuthaga, M. S. Bornman, M. E. Mahomed, D. Boomker, A. S. Greef, H. H. Crewe-Brown and S. Reif**
Urine as an alternative to urethral swabs for the diagnosis of *Chlamydia trachomatis* in infertile males

13 **C. Orlando, C. Krasz, G. Forti and R. Casana**
Simultaneous measurement of sperm LDH, LDH-X, CPK activities and ATP content in normospermic and oligozoospermic men

19 **E. A. McLaughlin, W. C. L. Ford and M. G. R. Hull**
Adenosine triphosphate and motility characteristics of fresh and cryopreserved human spermatozoa

24 **N. B. Oldereid, Y. Thomassen and K. Purvis**
Seminal plasma lead, cadmium and zinc in relation to tobacco consumption

29 **I. H. Hirsch, J. Sedor, D. Kulp, P. J. McCue and W. E. Staas, Jr.**
Objective assessment of spermatogenesis in men with functional and an anatomic obstruction of the genital tract

35 **A. Giwercman, O. P. F. Clausen, E. Bruun, C. Frimodt-Moller and N. E. Skakkebaek**
The value of quantitative DNA flow cytometry of testicular fine-needle aspirates in assessment of spermatogenesis: a study of 137 previously maldescended human testes

43 **M. A. Barbieri, M. A. Sosa, R. Couso, L. Ielpi, S. Merello, C. E. Tonn and F. Bertini**
Affinity sites for *N*-acetyl-β-D-glucosaminidase on the surface of rat epididymal spermatozoa

50 **F. C. R. Guma and E. A. Bernard**
Effects of retinol on glycoprotein synthesis by Sertoli cells in culture: dolichyl phosphomannose synthase activation

55 **Announcement**

56 **Erratum**

VOLUME 17, NUMBER 2, APRIL 1994

57 **Topical Review**
I. Huhtaniemi
Anabolic-androgenic steroids—a double edged sword

62 **Prize for basic research papers**

63 **A. Mandal and A. K. Bhattacharyya**
Collective isolation of two major, close molecular weight coagulum proteins occurring in human semen before liquefaction

68 **R. Henkel, T. Stalf, N. Mertens, W. Miska and W. -B. Schill**
Outer dense fibres of human spermatozoa: partial characterizations and possible physiological functions

74 **R. Hauser, J. B. Lessing, D. Samuel, H. Yavetz, M. R. Peyser, G. F. Paz and Z. Homonnai**
Management of bilateral nonpalpable testes: laparoscopic diagnosis and orchidectomy

78 **N. Henley, C. Baron and K. D. Roberts**
Flow cytometric evaluation of the acrosome reaction of human spermatozoa: a new method using a photoactivated supravital stain.

85 **E. Rajpert-de Meyts and N. E. Skakkebæk**
Expression of the c-*kit* protein product in carcinoma-*in-situ* and invasive testicular germ cell tumours

93 **L. D. Russell, V. Chandrashekar, A. Bartke and A. P. Sinha Hikim**
The hamster Sertoli cell in early testicular regression and early recrudescence: a stereological and endocrine study

107 **P. H. Chow, P. Dockery, M. P. L. Cheung and W. S. O**
Effects of male accessory sex glands on fertilization, polyspermy and morphometry of early embryos in the golden hamster

VOLUME 17, NUMBER 3, JUNE 1994

113 **European Academy of Andrology—General Assembly report**

115 **F. Pérez-Sánchez, T. G. Cooper, C. H. Yeung and E. Nieschlag**
Improvement in quality of cryopreserved human spermatozoa by swim-up before freezing

121 **H. Ben Ali, J. F. Guerin, M. C. Pinatel, C. Mathieu, D. Boulieu and B. Tritar**
Relationship between semen characteristics, α-glucosidase and the capacity of spermatozoa to bind to the human zona pellucida

127 **Ch. De Geyter, M. De Geyter, H. M. Behre, H. P. G. Schneider and E. Nieschlag**
Peroxidase-positive round cells and microorganisms in human semen together with antibiotic treatment adversely influence the outcome of in-vitro fertilization and embryo transfer

135 **R. Paschke, D. Schulze Bertelsbeck, S. Bahrs, A. Heinecke and H. M. Behre**
Seminal sperm antibodies exhibit an unstable spontaneous course and an increased incidence of leucocytospermia

140 **K. Matsumiya, M. Namiki, S. Takahara, N. Kondoh, S. Takada, H. Kiyohara and A. Okuyama**
Clinical study of azoospermia

143 **S. I. Gonzalez, M. O. Suescun, S. B. Rulli, F. Estivariz and R. S. Calandra**
Modulation of ornithine decarboxylase activity by prolactin in seminal vesicles of the rat

149 **M. R. Millar, R. M. Sharpe, S. M. Maguire, J. Gaughan, A. P. West and P. T. K. Saunders**
Localization of mRNAs by in-situ hybridization to the residual body at stages IX–X of the cycle of the rat seminiferous epithelium: fact or artefact?

161 **J. van der Grond, G. Dijkstra and C. J. A. van Echteld**
The effect of experimental cryptorchidism on the phosphorus NMR spectrum of the rat testis

168 **Prize for basic research papers/ Meetings update**

VOLUME 17, NUMBER 4, AUGUST 1994

169 **R. Wang, M. Bell, W. J. G. Hellstrom and S. C. Sikka**
Post-thaw sperm motility, cAMP concentration and membrane lipid peroxidation after stimulation with pentoxifylline and platelet-activating factor

174 **A-M. Andersson, K. Edvardsen and N. E. Skakkebaek**
Expression and localization of N- and E-cadherin in the human testis and epididymis

181 **R-Q. Wen, S-Q. Li, C-X. Wang, Q-H. Wang, Q-K. Li, H-M. Feng, Y-J. Jiang and J-C. Huang**
Analysis of spermatozoa from the proximal vas deferens of vasectomized men

186 **R. Mieusset and L. Bujan**
The potential of mild testicular heating as a safe, effective and reversible contraceptive method for men

192 **M. L. G. Anapliotou, M. Liparaki, N. Americanos, N. Goulandris and D. Papaioannou**
Increased 17-OH-Progesterone levels following hCG stimulation in men with idiopathic oligozoospermia and raised FSH levels

199 **W. C. L. Ford, J. M. Rees, E. A. McLaughlin, L. Ling and M. G. R. Hull**
Pentoxifylline acts synergistically with A23187 to increase the penetration of zona-free hamster oocytes by cryopreserved human spermatozoa

205 **T. T. Turner, E. A. Avery and T. J. Sawchuk**
Assessment of protein synthesis and secretion by rat seminiferous and epididymal tubules *in vivo*

214 **S. Schlatt and G. F. Weinbauer**
Immunohistochemical localization of proliferating cell nuclear antigen as a tool to study cell proliferation in rodent and primate testes

223 **Announcements**

VOLUME 17, NUMBER 5, OCTOBER 1994

225 **J. F. Griveau and D. Le Lannou**
Effects of antioxidants on human sperm preparation techniques

232 **Martin Robert and Claude Gagnon**
Sperm motility inhibitor from human seminal plasma: presence of a precursor molecule in seminal vesicle fluid and its molecular processing after ejaculation

241 **A. W. C. Kung, Y. Y. Zhong, K. S. L. Lam and C. Wang**
Induction of spermatogenesis with gonadotrophins in Chinese men with hypogonadotrophic hypogonadism

248 **F. Pérez-Sánchez, J. J. de Monserrat and C. Soler**
Morphometric analysis of human sperm morphology

256 **R. Weissenberg, S. Yossefi, Y. Oschry, I. Madgar and L. M. Lewin**
Investigation of epididymal sperm maturation in the golden hamster

262 **P. N. S. Kumar, M. M. Aruldhas and S. C. Juneja**
Influence of hypothyroidism induced at prepuberty on epididymal lipids and the number and motility of spermatozoa in rats

271 **C. Soler, C. H. Yeung and T. G. Cooper**
Development of sperm motility patterns in the murine epididymis

279 **Obituary—Paul Franchimont**

280 **Prize for basic research papers**

280 **Announcements**

VOLUME 17, NUMBER 6, DECEMBER 1994

281 **Topical Review**
J. M. Hutson
Testicular descent: the first step towards fertility

289 **A. G. Birks, H. Izzard, D. R. Morroll, J. R. Prior, S. A. Troup, B. A. Lieberman and P. L. Matson**
The routine assessment of sperm motility at room temperature and 37°C

292 **J. T. Pajarinen and P. J. Karhunen**
Spermatogenic arrest and 'Sertoli cell-only' syndrome—common alcohol-induced disorders of the human testis

300 **J. F. Griveau, P. Renard and D. Le Lannou**
An in vitro promoting role for hydrogen peroxide in human sperm capacitation

308 **M. Gavella and V. Lipovac**
Effect of pentoxifylline on experimentally induced lipid peroxidation in human spermatozoa

314 **K. Ellerbrock, I. Pera, S. Hartung and R. Ivell**
Gene expression in the dog epididymis: a model for human epididymal function

324 **I. Pera, R. Ivell and C. Kirchhoff**
Regional variation of specific gene expression in the dog epididymis as revealed by in-situ transcript hybridization

331 **Book review**

332 **Prize for basic research papers**

333 **Author index**

335 **Subject index**

Announcements: pp. 299, 332
